GOLD

FUTURE
PERFECT

TOMORROW'S PRODUCTS FOR TODAY'S FAMILY

gb offers a series of strollers and car seats created with intuitive features and an avant-garde appearance to meet the demands of tomorrow. Developed with a clear design philosophy and DNA, and engineered to include the most advanced safety technology, the gb Gold range exhibits tomorrow's products for today's urban family.

The gb Artio infant car seat (pages 10–15) boasts well thought-out safety functions and can be elegantly combined with gb strollers to form a modern travel system.

gb expanded its car seats range this year (pages 16–35), and now offers to the popular Everna-Fix (suitable for children from approx. 9 months to 12 years), the Convy-Fix (suitable for children from 0 to 7 years), and the highly flexible Uni-All (suitable for all children from 0 to 12 years). All gb car seats are built to meet the highest safety standards and at the same time combine form with functionality. This way we make sure to provide ongoing safety and support throughout your child's formative years, ensuring they are well protected at all times.

The ultra-compact buggies (pages 36–79) are divided into all-city buggies for smooth, reliable performances on even surfaces and the flexible lightweight all-terrain buggies for rougher ground. No matter if you want to experience rough terrain or urban habitats, gb can always offer the best solution to meet all your needs and expectations. Our buggies are made to be robust, reliable and stylish travel companions for active families.

Across the board, the gb Gold range products are attractive and easy to operate, with the design of tomorrow built for the everyday situations of here and now. Welcome to the new future perfect, the world of gb Gold that is perfectly tailored to suit an exciting lifestyle with children.

GB ARTIO TRAVEL SYSTEM

SAFETY MATTERS MOST

gb combines the highest standards of safety and design with innovative functionality. By remaining true to these principles, we make your child's safety and comfort our top priority. At the same time, smart, intuitive functions make our products convenient and easy to use, and we aim to eliminate any possible confusion or misuse. Developed by leading engineers, our child safety seats are regularly tested under real-life conditions both in-house and at outside crash facilities and testing labs. Any findings are used to further the development of our products. Our manufacturing facilities and production team ensure that gb products always meet safety standards and are of the highest quality.

ENERGY REDUCTION TECHNOLOGY: In the event of a frontal impact, the ER-Tech reduces strain on the neck by around 20% compared with other 5-point harness systems.

SIDE-IMPACT PROTECTION: The Linear Side-impact Protection (L.S.P. System) absorbs the very first impact forces of an accident. Flexible materials and the overall structure of the car seat then reduce the forces of an impact and channel them away from the child.

HEIGHT-ADJUSTABLE HEADREST: For both safety and comfort, the gb car seats are equipped with a height-adjustable headrest and an integrated harness guide. As you adjust the headrest, it simultaneously changes the harness length.

RESTRAINT SYSTEM CONTROL: Supports you to use the correct restraint for the size of the child. As their weight increases and the headrest is adjusted to the height of the child, the Restraint System Control helps you to switch from the 5-point harness to the 3-point vehicle belt at the appropriate time.

ISOFIX: gb uses the ISOFIX System, as it is easy to use when installing a child car seat in a vehicle and is proven to increase the seat's safety and security.

ARTIO

SAFETY AND STYLE REIMAGINED

If you want a car seat suitable right from the time of your child's birth, with innovative top-level safety features built into a stylish appearance, the gb Artio is the one for you. Innovative safety elements such as the Linear Side-impact Protection (L.S.P. System) and the energy-absorbing shell direct the impact forces of a side collision away from your child, keeping them safe and sound.

The height-adjustable headrest features integrated harness guides so that the belt grows with the child and you don't need to rethread the straps. A removable seat insert gives the option of a near-flat position for newborns. This position helps to prevent the head from falling forward, which significantly lowers the risk of breathing difficulties.

The gb Artio goes the extra mile because it can be used outside of the car too and fits on many buggies and strollers from gb, CYBEX or other selected brands. The gb Artio is truly safety and style reimagined.

GB ARTIO

WHY GB ARTIO?

The gb Artio is the champion infant car seat from the gb Gold range. It offers some of the most advanced safety technologies available and is assembled using state-of-the-art materials and design elements. For top safety, easy functionality, and a smart and stylish look and feel, choose the gb Artio.

EXCELLENT SAFETY FEATURES

Innovative safety elements such as the Linear Side-impact Protection and the energy-absorbing shell provide additional safety.

INTEGRATED XXL SUN CANOPY

Increased protection against sun and wind with UPF50+. When not in use, the canopy elegantly disappears behind a visor.

BASE-FIX AVAILABLE

The gb Artio can be clicked directly onto the base so you no longer need to use a seat belt to secure the seat in place. The Base-Fix can be secured with its ISOFIX connectors or with the vehicle belt.

USEFUL EVEN OUTSIDE THE CAR

You can attach the Artio to most gb or CYBEX strollers or buggies to create a practical travel system.

CONVY-FIX

SEVEN YEARS OF SAFETY

Thanks to innovative safety technology, the Convy-Fix is an excellent choice for your child's protection throughout the first 7 years of their life. With a focus on convenience, the Convy-Fix has the ability to grow with the child from birth to 7-years-old, making it the smart choice for long usability. The Energy-Reduction Technology of the Convy-Fix also safeguards your child in the event of a front collision while the L.S.P. System protects them from a side impact. Additionally, its simple one-hand recline function makes it quick and easy for the parent to adjust into a comfortable sleeping position.

The Convy-Fix is an outstanding fusion of innovation and functionality for the modern parent.

SEVEN YEARS OF SAFETY

Group 0+/1/2
From 0 up to 25 kg

GB CONVY-FIX

WHY GB CONVY-FIX?

ONE SEAT FOR SEVEN YEARS OF SAFETY

As a grow-up seat the Convy-Fix has the ability to grow with the child from birth to 7-years-old. The Convy-Fix can be used in a rearward-facing position for 4 years and forward-facing for 3 years, offering extended usage and increased comfort for the child and parents.

Reduces
front-impact
force by
20%

Reduces
side-impact
force by
25%

ENERGY-REDUCTION TECHNOLOGY

Safeguards your child in the event of a frontal impact. ER-Tech limits the neck's exposure to impact forces and can lessen the risk of injury by reducing the forces by up to approx. 20%*.

INTEGRATED L.S.P. SYSTEM

The L.S.P. System is an essential safety feature. Folded out on the door-side, it reduces the forces of a side-impact collision by approx. 25% when compared to the same seat without L.S.P. in the case of a side-impact*.

RESTRAINT SYSTEM CONTROL

The restraint system control supports using the correct restraint system according to the size of your child. When the child grows and the headrest is adjusted accordingly, the system then helps you to change from the 5-point-harness to the 3-point vehicle belt at the right time.

SLEEPING POSITION

The intelligent one-hand recline function helps parents to easily change from a seating position into five different sleeping positions. This feature offers additional comfort.

The lying position can be set whether the car seat is rearward-facing or forward-facing.

*When compared to the same seat without this system

UNI-ALL

THE ALL-IN-ONE SEAT

The Uni-All is an outstanding solution for your child's future. Designed to grow with your child from birth up to 12-years-old and built to exceptional safety standards. The Uni-All delivers ongoing safety and support throughout your child's formative growth phases, ensuring they are protected at all times. The innovative Energy Reduction Technology safeguards your child in the event of a front collision, while the integrated L.S.P. System provides an essential layer of protection for your child in case a side-impact occurs. The Uni-All is also equipped with ISOFIX and supported by a top tether belt for additional anchorage, preventing dangerous seat rotation in case of an accident.

The Uni-All is all you need—offering phenomenal safety and convenience at each stage of childhood.

THE ALL-IN-ONE SEAT

Group 0+/1/2/3
From 0 up to 36 kg

GB UNI-ALL

WHY GB UNI-ALL?

ALL-IN-ONE SEAT

If you're looking for a seat for your child, the Uni-All is the ultimate solution. The all-in-one seat offers exceptional standards in terms of comfort and functionality from birth up to approx. 12 years of age. One seat for every age.

Reduces front-impact force by 20%

Reduces side-impact force by 25%

ENERGY-REDUCTION TECHNOLOGY

Safeguards your child in the event of a frontal impact. ER-Tech limits the neck's exposure to impact forces and can lessen the risk of injury by reducing the forces by up to approx. 20%*.

INTEGRATED L.S.P. SYSTEM

The L.S.P. System is an essential safety feature. Folded out on the door-side, it reduces the forces of a side-impact collision by approx. 25% when compared to the same seat without L.S.P. in the case of a side-impact*.

TOP TETHER AND ISOFIX

In combination with the ISOFIX system, the top tether helps to prevent a seat rotation in case of an accident. The seat is secured using the ISOFIX and top tether for group 0+/1 (up to 18 kg) and is replaced by the 3-point vehicle belt for group 2/3.

RESTRAINT SYSTEM CONTROL

The restraint system control supports using the correct restraint system according to the size of your child. When the child grows and the headrest is adjusted accordingly, the system then helps you to change from the 5-point-harness to the 3-point vehicle belt at the right time.

EVERNA-FIX

THE GROW-UP SEAT

Time flies, and children grow up – fast! As a grow-up seat, the gb Everna-Fix is the perfect fit for the future, designed to evolve with your child from around 9 months up to 12 years of age.

The innovative reclining headrest of the gb Everna-Fix helps to prevent your child's head from tipping forward while sleeping. In the event of a side-impact collision, the child's head therefore remains within the safety zone of the seat.

The gb Everna-Fix is also equipped with ISOFIX and supported by a top tether belt for additional anchorage to prevent dangerous seat rotation in case of an accident.

The gb Everna-Fix is the perfect balance of safety, design, and functionality, offering unparalleled support at every life stage.

And when the day is done, a flick of the wrist folds the gb Qbit+ All-City into a compact package that can be taken anywhere – making it the ultimate travel companion. With the optional ability to use it as a 3-in-1 travel system with a gb or CYBEX infant car seat and the gb Cot To Go, the gb Qbit+ All-City is perfect for your modern lifestyle.

As an exclusive version, the gb Qbit+ All-City is also available as a Fashion Edition with a silver anodized frame and an exquisite 3D mesh inlay, complemented with high-class leather elements and side-viewing windows.

GB QBIT+ ALL-CITY FASHION EDITION

WHY GB QBIT+ ALL-CITY?

With its super lightweight frame and four-wheel suspension, the gb Qbit+ All-City provides a smooth ride with simultaneously increased maneuverability. The exclusive Fashion Edition comes with a silver anodized frame and an exquisite 3D mesh inlay, complemented with high-class leatherette elements and side-viewing windows.

HIGHLY COMPACT

The gb Qbit+ All-City is the ideal companion for parents navigating the bustle of the city. Compact and convenient, it can be folded into an ultra-compact package.

FULL LIE-FLAT

The backrest can be reclined with one hand down to a comfortable full lie-flat position.

3-IN-1 TRAVEL SYSTEM

The gb Qbit+ All-City is an intuitively coordinated system that offers a choice of customization options, including the matching carry cot, the lightweight, compact stroller or the travel system using an infant car seat from CYBEX or gb.

SELF-STANDING WHEN FOLDED

Cleverly designed to stand upright when folded up, making it especially fit for urban parents to stow away while on the go - anywhere, anytime.

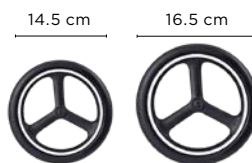

QBIT+ ALL-CITY FASHION EDITION

FASHION
EDITION

LUXURY SUN CANOPY WITH MESH WINDOW

Offers UPF50+ protection, a viewing window so your little one can enjoy shade and necessary protection from the sun and wind.

CITY SINGLE WHEELS WITH ALL-WHEEL SUSPENSION

Designed for urban parents on the go. Both comfortable and agile, the slim profile of the wheels is ideal for smooth city surfaces.

EXTRA LIGHTWEIGHT

The perfect travel companion. Its super-lightweight frame is easy to maneuver, lift and carry. Perfect for the city, on vacation, or just being on the go.

FRONT SWIVEL WHEELS

Allow you to easily navigate your way through tight city spaces.

ADJUSTABLE LEGREST

The adjustable legrest in combination with the adjustable backrest enables a comfortable lying position for the child.

GB QBE+ ALL-CITY WITH ARTIO TRAVEL SYSTEM

COT TO GO

COMPACT. COMPATIBLE. LUXURIOUS.

The carry cot for parents on the go, the gb Cot To Go offers lightweight luxury for newborn and small babies up to around 6 months (9 kg) with a full lie-flat position on a soft memory foam mattress. When it's not in use, it folds up into a compact package, so small it's hand luggage compliant on airplanes.

Available in a stylish Satin Black, the gb Cot To Go clicks via car seat adapter into or out of the gb Qbit+ or gb Pockit+ buggy (both All-Terrain and All-City) in seconds thanks to memory buttons, and turns them into a 3-in-1 travel system that is suitable for use from birth onwards – the perfect compact travel solution for cosmopolitans.

GB QBIT+ ALL-CITY WITH COT TO GO

GB COT TO GO FUNCTIONS

SUN CANOPY

For extra protection against sun and wind with UPF50+

MEMORY BUTTONS

For easy and convenient click on and click off of the carry cot

CARRY STRAPS

For comfortable and easy carrying

MEMORY FOAM MATTRESS

Extra-soft and comfortable mattress

FOLD MECHANISM

It just takes a few steps and the gb Cot To Go can be folded into a 3 kg super-lightweight, compact package that can be stored easily at home or your travels

GB COT TO GO

In combination with a gb Pockit+ or a gb Qbit+, both All-Terrain or All-City, the gb Cot To Go offers a compact and comfortable travel solution from day one – it turns the gb Ultra-Compact gb Pockit+ and gb Qbit+ buggies into convenient 3-in-1 travel systems with just one click.

Equipped with a convenient carry strap, this carry cot is the first ultra-lightweight, foldable cot of its kind. Smart features, such as the washable fabric and the sun canopy make small trips and big holidays a breeze.
